Your company recognises an opportunity to gain competitive advantage for its lead product and services by leveraging the best methodology and technology. We investigate how our research and innovation services can help and propose a €25k project broken down into 4 mini-projects. We guide you in applying for a series of innovation vouchers to secure €20k of funding over a 6-month period for an investment of just €5k ex VAT.

Our in-house expert researchers and industry practitioners undertake the work. Your company benefits from the value of knowledge generated during the project and owns any IP that may arise.
